

VOLUNTEERING OPPORTUNITIES

Without a steady supply of volunteers Liphook u3a could not continue.

There are many, often quite small, tasks that greatly assist the smooth running of the charity. These include assisting with catering, stocktaking and setting up equipment, supporting new members etc.

Alternatively, if you have a specific hobby or specialism that you would like to share with others then there may be an opportunity to establish, and lead, a special interest group for our members.

In addition, we often have places on the management committee, some of which have specific roles such as Secretary. There are also general committee places “without portfolio”.

If you would like to be part of the team that makes the u3a work then please do contact the Chair via the contact facility on this website for a discussion and information about current opportunities. You don't have to have any previous experience or have a lot of time to spare – whatever you can offer will be greatly appreciated.
