

Liphook u3a Summer Bulletin 2026

Dear Members

I hope you are all enjoying the good weather ahead of the forecast heatwave! A short note to remind you of what is coming up as we head into our next season.

Speaker programme

Our speaker presentation programme is in recess for the summer months of July and August, returning, fully refreshed, on 7th September at 2pm in the Millennium Centre with Dr Bob France. Subsequent presentations are listed on our website under "Events".

Speaker: Dr Bob France

"Beware Carrots from Northumberland"

At just 3, Bette inherits the immense wealth of the Percy dynasty. By 15, she is on her third husband, having fled her loathsome second husband. Was she complicit in his violent murder? Will her third husband be any better? How will she fare with Queen Anne and what will happen to Petworth?

Publicity

The Liphook Community Magazine (Summer) features a report on our Spring Open Event and looks forward to the next one on the afternoon of **Saturday 31st October** in the Millennium Hall. Please do spread the word especially amongst non-member friends. The magazine also features an excellent article by Victoria Hanson on the activities of the u3a Art Appreciation Group. It is good to see our Groups gaining publicity in this way and I hope that other Groups will feel able to submit articles for future editions. The closing date for copy (Autumn) is 17th July.
